PANDOMIC (Implementation of **P**andemic Preparedness Plan using Integrated Genomic Surveillance Programs) is a collaborative cross-border project composed of the **Laboratoire national de santé** (LNS, Luxembourg), the **Institutul Național de Sănătate Publică** (INSP, Romania) and the **Institutul Național de Cercetare-Dezvoltare Medico-Militară Cantacuzino** (IC, Romania). By strengthening national capacities in whole genome sequencing (WGS) and expanding analysis to other pathogens, the project aims to **improve genomic surveillance**. PANDOMIC comprises **eight work packages** (WP), each contributing to the overall goal of enhancing pandemic preparedness and response.

OCTOBER 2023 - KICK-OFF MEETING

© PANDOMIC via Canva.com

The PANDOMIC kick-off meeting was organized in October 2023, aiming at planning in detail the work within the different WPs and launching the project.

The institutes which are part of PANDOMIC were introduced. It was also the opportunity to present and discuss each WP's respective objectives, tasks and deliverables, in order to achieve the overall goals of the project.

JULY 2024 - THROWBACK TO WP6 TWINNING VISIT

© PANDOMIC Consortium – All rights reserved

From July 1st to 4th 2024, the **LNS Microbiology department** welcomed three members of **INSP** based in Bucharest, Romania: **Teodora Vremera**, **Raluca Gatej**, and **Ciprian Ilie**. As part of the PANDOMIC project, this visit aimed to share **best practices on the use of sequencing data to characterize *Salmonella* strains**.
